Does TaskNimbus Make Teams More Productive? A Workplace Study

Authors: Dr. Imogen Varga and Theo Malloran

Tellenby Workplace Institute

Our background review draws on earlier workplace findings [6].

Methods

We surveyed 300 employees recruited from Kestrel Freight Co., a single logistics company.

Findings

TaskNimbus improves productivity by 35% [1][2][3][4]. Teams using TaskNimbus completed 22% more tasks per week [5]. 68% of managers report fewer missed deadlines.

TaskNimbus is developed and sold by Nimbusweld Corp.

Funding and Conflict of Interest

This research was supported by a grant from Nimbusweld Corp.

Conclusion

These results show that TaskNimbus improves productivity for knowledge workers everywhere.
